

A bundle of several unlit sparklers, showing their dark, textured bodies and thin, pointed tips, arranged diagonally across the page.

A SPARKLER BURNS AT 1800 DEGREES FAHRENHEIT

IMAGINE WHAT
IT CAN DO TO A
CHILD'S EYE

45% of
fireworks-related
injuries occur to children
under the age of 14. And every
year, 400 Americans lose sight in one
or both eyes due to fireworks.

*Celebrate safely this 4th of July. Leave fireworks
in the hands of the professionals.*
